

NETWORKER

OVERVIEW

Networker is the first purpose-built cable-working barge in South East Asia. One of the largest vessels of her kind, she is specifically designed to provide shallow water expertise throughout the Asia Pacific Region. Her all-electric drive ensures maximum flexibility and control during narrow corridor cable installation operations.

VESSEL

Builders	Labroy Shipbuilding & Engineering PTE LTD, Indonesia
Date built	1999
Flag	Panama
Class	ABS. A1 Cable Barge
Length overall	60.00m
